

PERFORMANCE DRIVER SUITE

A PERSONAL PRODUCTIVITY TOOL TO PROACTIVELY MANAGE YOUR BUSINESS

Executives and managers are faced with daily pressures to make strategic business decisions. Information is plentiful but difficult to access and interpret. As companies strive to improve their businesses, they realize the need for reliable tools to help them make the right decisions at the right time.

Unlike other products that only provide a simple dashboard of business metrics, Activant's Performance Driver Suite provides a unique, tailored, personalized host of analytical and transactional tools.

The Performance Driver Suite ties multiple systems and datasets together and updates information as often as you like. The graphical presentation layer allows you to drill down and analyze root cause and then immediately execute corrective actions. System administrator tools allow configuration and security controls at group and individual levels.

With Rules, the system highlights information when a condition you specify is met. For example, you can define a rule to notify you when sales are below your previous year.

Performance Driver Suite lets you proactively monitor your business and execute actions to realize continuous business improvement.

“Activant Performance Driver Suite allows for a quick assessment of essential metrics, especially for managers. If you want more information, a simple click reveals all related detail for review. Its ease of use and flexibility will give managers access to data instantly when, in the past, it was only available once a month or when a paper report was created and printed by IT or Accounting.”

JESSE OVERLY

SENIOR SYSTEMS ADMINISTRATOR
WILLIAMS BROS. LUMBER COMPANY

BENEFITS

- Understand your business performance, make proactive decisions and control your business operations
- Drill down on information to gain understanding of root cause and effect
- Provide the right information to the right people in an intuitive format
- Access information from multiple data sources

KEY BENEFITS OF PERFORMANCE DRIVER SUITE

Help Sales Representatives and Managers Focus on Key Accounts

- Focus on customer relationships
- Increase sales
- Manage sales force performance
- Track sales trends
- Compare same data from different periods
- Control inventory for better customer service and profitability

“Since installing Performance Driver Suite, our owner and managers can easily see ‘how we’re doing’ all day long. When our owner is out of town, he can log on, view the Performance Driver and get information quickly and easily. Sales managers rely on weekly reports to bring management up to date while our accounting department is no longer required to print and distribute daily reports. The ease and functionality of this product has had a substantial impact on our day-to-day operations.”

TERRI B. ZETROUER
VICE PRESIDENT, CHIEF ADMINISTRATIVE OFFICER
BUCK LUMBER AND BUILDING SUPPLY, INC.

The Performance Driver Suite uniquely provides analytical tools.
