

LABEL PRINTING

LABEL PRINTING SOFTWARE PUTS YOU IN CONTROL OF THE LOOK AND THE PRICE

Your *Activant Eagle™* for Windows system delivers automated label printing so you don't have to spend hours repricing your store item-by-item. You can update prices in just a fraction of the time it used to take, as well as improve your pricing accuracy and visibility with sharp, high-quality bin tags and barcode labels.

With Activant Label Printing, it's easy to create the label you want. Label Printing comes with standard label templates so you can make sharp, high-quality labels quickly. Or, you can design professional labels that reflect your corporate image with the easy-to-use Label Designer. Font, text size and color are all adjustable, and desktop publishing tools give you the ability to create lines and fills.

Label Printing integrates with your *Activant Eagle* Inventory for Windows program,* so you create bin and price labels with just a click of your mouse. Then print your label as soon as you create it, or save it and print a batch of labels later.

Repricing your store has never been as quick and easy as it is with Activant Label Printing!

BENEFITS

- See your label on screen as you create it
- Print one, several or a batch of labels at your convenience
- Use built-in label templates to update your store quickly
- Create custom labels with the label designer for a unique, consistent look throughout your store

KEY BENEFITS OF LABEL PRINTING

Create a variety of labels directly from your Activant Eagle system

- Print price labels and bin tags one-at-a-time or in batches, at your convenience
- View your labels on the screen as you create them, reducing wasted labels
- Use your standard dot matrix and laser printers and save money
- Print the most common industry-standard barcode formats, including:
 - Code 39
 - UPC-A
 - Interleaved 2 of 5
 - UCC Code 128
 - UPC-E

Create template-based or custom labels easily with intuitive, Windows-based software

- Use the professional-quality label design/editing suite to create the label you want up to 8.5" x 11"
- Define margins and guides for better positioning and sizing of text on the label
- Create labels quickly and easily using built-in templates
- Design your labels using standard Windows features such as toolbars and drop down menus to minimize the learning curve
