

TIMECLOCK PLUS

LET TIMECLOCK PLUS TAKE THE TROUBLE OUT OF TRACKING TIME AND ATTENDANCE TODAY!

Tired of manually tracking when your employees are working and when they are on break or off duty? Need a better way to track vacations and sick days? Wish you could track the hours your employees spend working different jobs or projects? Then Activant's time and attendance package, TimeClock Plus™, is just what you need!

Your employee's clock in at any Activant terminal connected to your Activant Eagle™ system and TimeClock Plus automatically tracks their hours and breaks. The information is converted to a digital format, allowing you to produce absent and tardy reports, accrual of sick and vacation time off, and real-time statistics of who's working where. In the easy-to-use Windows format, you can quickly view and edit each employee's schedule, while keeping an eye on regular and overtime hours.

Assign Cost Codes for your jobs and track how many hours each employee works on the project as well as the total hours it takes to complete. The information can be imported into the Activant Payroll software program, or exported in various PC file formats.

Let TimeClock Plus take the trouble out of tracking time and attendance today!

BENEFITS

- Improve employee management and productivity
- Process payroll quickly and accurately
- Better utilize labor dollars and resources

KEY BENEFITS OF TIMECLOCK PLUS

Manage employee resources for maximum productivity and profitability

- Record hours worked, overtime and breaks (paid and unpaid) automatically
- Print detailed reports for each employee with total hours worked each day, each week and each pay period
- Track employee regular and overtime hours by job
- Discover which employees are typically on-time or tardy
- Quickly see all on-duty employees with the *Who's Here* feature
- Keep track of labor expenses in real time by the day or the week
- Estimate the wages due each employee based on hours, job and pay rate

Export data via integration to your payroll package

- Download data to the Activant Payroll software package*
- Export data in industry-standard formats into third party software programs for accounting*

Maximize your labor investment with job cost analysis

- Assign specific job-cost codes to each job and track the number of regular and overtime hours worked
- Track the wages paid for each job broken down by employee
- Understand and evaluate exactly where your labor dollars are spent
